

Room Type Description Guideline

This is the guideline for the room types used by **Jebsen Holidays Limited**. This is for your guidance only and **Jebsen Holidays Limited** do not provide any guarantee and it is subject to the hotel room facility and occupancy situation at the time of check-in.

Sleeps	Room Type	Description
Sleeps 1	Single	Contains 1 single bed
	Double Single Use	Contains 1 double bed used for 1 person
	Twin Single Use	Contains 2 single beds used for 1 person
Sleeps 2	Twin	Contains 2 single beds used for 2 persons
	Double	Contains 1 double /queen/king-sized bed for 2 persons.
Sleeps 3	Triple	Contains 3 single beds used for 3 persons.
	Triple	Contains 2 single beds/01 double /queen/king-sized bed for 2 persons + one extra bed for 1 person. Some hotels will provide 1 King-sized bed for 3 persons, May vary depending on the hotel.
Sleeps 4	Quadruple	Contains either 2 double beds, 4 single beds, or 2 double beds with 2 extra beds. May vary depending on the hotel. Suitable for 4 adults or a family of 4 people.

Some hotels do not classify the room type as twin or double room, therefore if traveler request for room type as twin or double when making a booking, hotels may provide one double bed or two single beds in a room. For triple room, a twin or double room plus an extra bed (or sofa bed or a rollaway bed) may be provided, or only 1 King sized bed may be provided at the hotel. For single room occupancy, some hotels do not provide a single bed in a room but may provide a twin or double bedded room instead. For quad room type, some hotels provide two double beds.

Room Type Description Guideline for Japan/Korea Hotels

Most of the hotels in Japan / Korea do not have triple or quad rooms. Some hotels have either twin or double room and may have other room types not mentioned here. In some cases, 'standard' may mean the general room type referred by hotel. Therefore, Economy and Studio room types can be expressed as Standard in some hotels. Please note that this is for your guidance only.

Sleeps	Room Type	Description
Sleeps 1	Single	Contains 1 single bed.
	Double Single Use	Contains 1 double bed used for 1 person.
	Twin Single Use	Contains 2 single beds used for 1 person.

HOTEL

Such requests for room type cannot be guaranteed as hotel will provide the room based on hotel occupancy situation at the time of check-in.

You can request a baby cot for an infant (24 months old or below) which is usually free of charge. There will be no breakfast for infant or children usually under free of charge stay ie. without supplementary charge. Upon check-in, hotel has the right to determine the supplementary charge for the infant or children stay if the original booking did not indicate the accompanying infants or children.
